

4 ways Samsung computing can help you work wonders

SAMSUNG

In today's hybrid world, you need more from your devices than ever before. Samsung has developed a range of computing devices built upon its mobile heritage and expertise to meet the demands of a new world of work and deliver in four key areas for your business.

UNRIVALLED SECURITY

The challenge

With devices split across multiple locations and workers connecting to unsecured networks when out and about, security risk is greater in the hybrid workplace.

of UK businesses believe remote working has left them open to cyber-attacks.¹

The solution

Knox defence-grade security is built-in to Samsung devices as standard, so you don't have to worry about keeping your business data secure.

LIFETIME SUPPORT

The challenge

As you focus on digitally transforming your business, your IT team need to focus on strategic innovation, but they often get interrupted by day-to-day device management.

of IT teams' time is spent on manual, routine work.²

The solution

XMA's team of experts can configure, deploy and manage your new Samsung devices and help you get more value from Samsung features.

SEAMLESS WORKING

The challenge

Hybrid workers want seamless connectivity and access to their favourite business apps for collaboration and productivity.

The solution

Samsung's best-in-class open ecosystem of accessories, software and apps are specially designed to equip your people with the very best productivity tools.

CLEVER DEVICES

Employees want devices that match their work styles. It's no longer a case of everyone working to the same formula and so your device fleet must offer choice and flexibility.

Samsung's wide range of devices means you can find the perfect match for every employee and make mobility a reality across your whole business.

BUILD YOUR SAMSUNG ECOSYSTEM WITH XMA

Alongside the product expertise you might expect, XMA's long, close relationship with Samsung allows us to offer you better deals than you might find elsewhere.
